

# Safety Data Sheet

Issue Date: 12-Jun-2006

Revision Date: 02-Dec-2017

Version 2

## 1. IDENTIFICATION

### Product Identifier

**Product Name** Anti Slip Granules #140

### Other means of identification

**SDS #** NAP00010

### Recommended use of the chemical and restrictions on use

**Recommended Use** Used for kitchen and bath refinishing.

### Details of the supplier of the safety data sheet

#### **Manufacturer Address**

North America Polymer Company, Ltd.  
7315 Hamlin Ave  
Skokie, IL 60076 USA

#### **Emergency Telephone Number**

**Company Phone Number** 800-888-1081 / 847-779-6464  
**Emergency Telephone (24 hr)** INFOTRAC 1-352-323-3500 (International)  
1-800-535-5053 (North America)

## 2. HAZARDS IDENTIFICATION

**Emergency Overview** The product contains no substances which, at their given concentration, are considered to be hazardous to health.

**Appearance** White solid powder

**Physical state** powder

**Odor** Wax

### Classification

This chemical does not meet the hazardous criteria set forth by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200). However, this Safety Data Sheet (SDS) contains valuable information critical to the safe handling and proper use of this product. This SDS should be retained and available for employees and other users of this product.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS No.	Weight-%
Polypropylene	9003-07-0	100

\*\*If Chemical Name/CAS No is "proprietary" and/or Weight-% is listed as a range, the specific chemical identity and/or percentage of composition has been withheld as a trade secret.\*\*

## 4. FIRST AID MEASURES

### First Aid Measures

<b>Eye Contact</b>	Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Seek immediate medical attention if adverse effect occurs.
<b>Skin Contact</b>	Wash off immediately with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
<b>Inhalation</b>	Remove to fresh air. If necessary, use artificial respiration to support vital functions.
<b>Ingestion</b>	Do NOT induce vomiting. Rinse mouth thoroughly with water. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

### Most important symptoms and effects

<b>Symptoms</b>	May cause mechanical eye irritation. May cause dizziness, headache, respiratory irritation or loss of consciousness. May cause gastrointestinal irritation, nausea, diarrhea, and vomiting. Skin contact can lead to drying, defatting, itching, stinging and irritation.
-----------------	---

### Indication of any immediate medical attention and special treatment needed

<b>Notes to Physician</b>	Individuals with preexisting skin problems, asthma and lung diseases may have increased susceptibility to the toxicity of excessive vapors.
---------------------------	---

## 5. FIRE-FIGHTING MEASURES

### Suitable Extinguishing Media

Foam. Dry chemical or CO<sub>2</sub>.

**Unsuitable Extinguishing Media** Avoid water stream on molten burning material as it may scatter and spread the fire.

### Specific Hazards Arising from the Chemical

Melts in proximity to fires causing slippery floors and stirs. When powder is suspended in air, these products could be an explosion hazard.

**Hazardous Combustion Products** Carbon oxides.

### Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Evacuate area of unprotected personnel. Remain upwind of fire to avoid hazardous vapors and decomposition products. Use water spray to cool fire-exposed containers and disperse vapors.

## 6. ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

<b>Personal Precautions</b>	Wear protective clothing as described in Section 8 of this safety data sheet. Never exceed any occupational exposure limit.
<b>For Emergency Responders</b>	Evacuate unprotected personnel from area.

**Methods and material for containment and cleaning up**

<b>Methods for Containment</b>	Prevent further leakage or spillage if safe to do so. Contain with inert material. If hot liquid is spilled, attempt to confine spill and let the polymer solidify. Once solid, it may be recovered as the powder.
<b>Methods for Clean-Up</b>	Eliminate all sources of ignition. Maintain adequate ventilation. Sweep up with a minimum of dusting. Collect in containers such as fiberboard drums or cartons.

**7. HANDLING AND STORAGE****Precautions for safe handling**

<b>Advice on Safe Handling</b>	Handle in accordance with good industrial hygiene and safety practice. Avoid breathing fumes from heating operations. Avoid spillage which can cause very slippery conditions on floors. Electrostatic charges of non-conductive materials are a natural phenomenon ranging from harmless to a nuisance to a hazard, depending on the degree of charging and the environment where the discharge takes place. This product can and will hold a static charge for long periods of time. With this in mind, a great deal of care should be exercised when handling this type of product in or around flammable liquids, particularly if the liquid is at or near its flashpoint. To reduce the hazard, use only conductive equipment and keep all components grounded and bonded to the same vessel in order to equalize any potential charge. Additional information on proper handling techniques can be found in NFPA 77 issued by the National Fire Protection Association.
--------------------------------	---

**Conditions for safe storage, including any incompatibilities**

<b>Storage Conditions</b>	Keep container tightly closed and store in a cool, dry and well-ventilated place. Avoid excessive temperatures & high humidity.
<b>Incompatible Materials</b>	Strong oxidizing agents. Amines.

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

<b><u>Exposure Guidelines</u></b>	This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies
-----------------------------------	--

**Appropriate engineering controls**

<b>Engineering Controls</b>	Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the SDS. Eye wash fountain should be located in immediate work area.
-----------------------------	--

**Individual protection measures, such as personal protective equipment**

<b>Eye/Face Protection</b>	Splash goggles or safety glasses.
<b>Skin and Body Protection</b>	Wear heat resistant, impervious gloves for routine industrial use. Use body protection appropriate for the task. An apron or other impermeable body protection is suggested. Full-body chemical protective clothing is recommended for emergency response procedures.
<b>Respiratory Protection</b>	If respiratory protection is needed, use only protection authorized in the U.S. Federal OSHA Standard (29CFR 1910.134), applicable U.S. State regulations, or the Canadian CSA Standard Z94.4-93 and applicable standards of Canadian Provinces. Oxygen levels below 19.5% are considered IDLH by OSHA. In such atmospheres, use of a full-facepiece pressure/demand SCBA or a full facepiece, supplied air respirator with auxiliary self-contained air supply is required under OSHA's Respiratory Protection Standard (1910.134-1998).

**General Hygiene Considerations** Handle in accordance with good industrial hygiene and safety practice.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

<b>Physical state</b>	powder	<b>Odor</b>	Wax
<b>Appearance</b>	White solid powder	<b>Odor Threshold</b>	Not determined
<b>Color</b>	White		

Property	Values	Remarks • Method
<b>pH</b>	Not determined	
<b>Melting Point/Freezing Point</b>	166 °C 330 °F	
<b>Boiling Point/Boiling Range</b>	Not available	
<b>Flash Point</b>	277 °C / > 530 °F	
<b>Evaporation Rate</b>	Not determined	
<b>Flammability (Solid, Gas)</b>	Not determined	
<b>Flammability Limits in Air</b>		
<b>Upper Flammability Limits</b>	Not determined	
<b>Lower Flammability Limit</b>	Not determined	
<b>Vapor Pressure</b>	0	
<b>Vapor Density</b>	Not determined	
<b>Relative Density</b>	0.90 g/cc	
<b>Water Solubility</b>	Negligible	
<b>Solubility in other solvents</b>	Not determined	
<b>Partition Coefficient</b>	Not determined	
<b>Auto-ignition Temperature</b>	Not determined	
<b>Decomposition Temperature</b>	Not determined	
<b>Kinematic Viscosity</b>	Not determined	
<b>Dynamic Viscosity</b>	Not determined	
<b>Explosive Properties</b>	Not determined	
<b>Oxidizing Properties</b>	Not determined	

### Other Information

**VOC Content (%)** 0%

## 10. STABILITY AND REACTIVITY

### Reactivity

Not reactive under normal conditions.

### Chemical Stability

Stable under recommended storage conditions.

### Possibility of Hazardous Reactions

None under normal processing.

**Hazardous Polymerization** Hazardous polymerization does not occur.

### Conditions to Avoid

Avoid contact with heat, sparks, electric arcs, other hot surfaces and open flames.

### Incompatible Materials

Strong oxidizing agents. Amines.

### Hazardous Decomposition Products

Thermal decomposition may produce oxides of carbon, fumes and smoke.

## 11. TOXICOLOGICAL INFORMATION

### Information on likely routes of exposure

#### Product Information

<b>Eye Contact</b>	May cause mechanical eye irritation.
<b>Skin Contact</b>	May cause itching, scaling, drying and irritation of skin.
<b>Inhalation</b>	May cause dizziness, headache, respiratory irritation or loss of consciousness.
<b>Ingestion</b>	May cause gastrointestinal irritation, nausea, diarrhea, and vomiting.

### Component Information

#### Information on physical, chemical and toxicological effects

**Symptoms** Please see section 4 of this SDS for symptoms.

#### Delayed and immediate effects as well as chronic effects from short and long-term exposure

**Skin corrosion/irritation** Repeated skin contact can lead to drying, defatting, itching, stinging and irritation.

**Carcinogenicity** The table below indicates whether each agency has listed any ingredient as a carcinogen.

Chemical Name	ACGIH	IARC	NTP	OSHA
Polypropylene 9003-07-0		Group 3		

#### Legend

*IARC (International Agency for Research on Cancer)  
Group 3 IARC components are "not classifiable as human carcinogens"*

**Reproductive toxicity** Not determined.

**Developmental toxicity** Not determined.

## 12. ECOLOGICAL INFORMATION

### Ecotoxicity

This compound may be harmful or fatal to contaminated plant and animal-life (especially if large quantities are released). No data are currently available on the effects of a release of this compound to bodies of water. It may be expected that a release, especially of large quantity, may harm aquatic organisms.

### Persistence/Degradability

Not determined.

### Bioaccumulation

Not determined.

### Mobility

Not determined

### Other Adverse Effects

Not determined

**13. DISPOSAL CONSIDERATIONS**

**Waste Treatment Methods**

**Disposal of Wastes**

Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste disposal facility. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements.

**Contaminated Packaging**

Disposal should be in accordance with applicable regional, national and local laws and regulations.

**14. TRANSPORT INFORMATION**

**Note**

Please see current shipping paper for most up to date shipping information, including exemptions and special circumstances.

**DOT**

Not regulated

**IATA**

Not regulated

**IMDG**

Not regulated

**15. REGULATORY INFORMATION**

**International Inventories**
